

Beach

The Havana Biltmore Yacht and Country Club was built in 1928 by the Cuban government of that time with the support of the United States. It was the time of eclectic constructions in Havana, financed by the big brother neighbor in exchange for an unlimited political influence.

Today, the building is a club for diplomats and foreign businessmen, but it also has the only beach in the capital. The restored building has gained again its splendor because of its imposing structure and the numerous recreational facilities: boutiques, sport halls, swimming pool, two restaurants and two beautiful dinner halls. The organized activities are divided in "days at the Club" and "Gala nights":

We propose a whole day (or half a day) at the beach for those groups with a short stay in Cuba, with all the comfort offered by its facilities. We also organize "Olympic Games" in a context full of games and outdoor activities.

The Club Habana also offers the visitor the following activities:

- Private dinner with show.
- Meeting with the Club Auto Habana.
- Cigar tasting.
- A day at the beach with lunch
- Half a day at the beach
- Olympic games
