

## Music in Havana

It is a wide-ranging subject... Cuba is one of the world capitals of music and not only Salsa or Cuban traditional music, Afro-Cuban music in all its modalities, but also Jazz, classic music, chamber music, symphonic music, baroque music... contemporary dance, ballet, flamenco... and all with an exceptional professional level and easily accessible. Cuba is the country of music and dance without any doubt. To organize a concert or a show with dancers, from the most modern to the most classic style is relatively affordable. For 30 persons, a custom-made activity can be possible and for 100, you can enjoy a show of impressive quality. Alongside the cliché of the festive island dancing to the rhythm of a Salsa, Cuba is also a cultural capital where the quality of artists in classic arts is worldwide known. As Paris, New York or Tokyo, you also have to visit Havana.
